If you advertise on other channels, you should be utilizing the power of Amazon's display and video ads.

Join Russ Dieringer and guest presenter Joe Shelerud as they discuss why Amazon's first-party data, inventory and supply sources, and custom creatives are just some of the ways Amazon's DSP is superior to the rest.

Attendees will learn that whether you sell on Amazon or another ecommerce site, they can harness the power of Amazon's DSP to build a sustainable, successful strategy by targeting their ideal customers with the most relevant information.

This session is designed for intermediate to advanced eCommerce practitioners that have experience with Amazon advertising or simply want to learn more about what's possible.
